

## ERASMUS+ - FOMO ? Misli in deluj – lokalno in evropsko !

Ema Ramot

V aprilu nas bodo obiskali dijaki in profesorji naše partnerske šole **Lycée D'Arsonval iz Saint Maur-Des-Fossés v Franciji**, a že pred obiskom smo želeli izvedeti, kakšno je tam življenje mladih. Dijaki **2.ag** so želeli izvedeti več o **znamenitostih in kulinariki, stereotipih** in seveda **utripu na njihovi šoli**.

### 1 SCHOOL IN FRANCE

#### 1. Which foreign languages do you learn in school?

At school everyone has to study English, and has to choose between Spanish and German.

#### 2. How long is your school day? When do you start your classes?

A school day is very long. We start at 8 am and finish at 5:30 pm or sometimes 6:30 pm. But we don't have class on Wednesday and Saturday afternoon, and of course on Sundays.

#### 3. Is it difficult for you to balance school and free time? Are you under a lot of pressure because of it?

We are preparing for the baccalaureate exam, so we have a lot of homeworks and pressure which makes it hard to manage both school and free time.

### 2 FRENCH CULTURE

#### 1. Which stereotypes about French people (for example them being romantic, being fashionable, being good cooks, only drinking wine or coffee, etc.) are actually true, and do you think there are more negative or positive stereotypes about French people?

Most stereotypes are right, we are romantic, fashionable, and our bread, wine and cheese are the best. ;) But we also are always complainers, always on strike and have a strong accent when we speak English.

#### 2. Do you consume a lot of French media (music, TV shows, movies, etc.), or do you prefer media in other languages, like English?

We're quite multicultural, we're listening to a bit of everything.

### 3 LIFE IN FRANCE

#### 1. What is an interesting fashion trend in France?

The current fashion trend in France is crocs, ballerinas and skirts over jeans.

#### 2. What do most French teenagers do in their free time? Is there an activity almost everyone loves?

We play video games (Fifa, fortnite,...), play sports, go out with friends, read books, bake...

#### 3. How is life in the countryside different from life in cities in France (for example: prices, free time, schools, etc.)?

Life in the city is more expensive, especially for accommodation. Travel is easier and a car is not necessary. Access to culture is also easier in the city. But there is less calm, more pollution...

#### 4. Do you consider France a safe country? Why/ why not?

France is a safe country because there is no civil war. But isn't that safe at the same time because of the terrorist attacks, pickpockets, police violence.

### 4 TOURISM

#### 1. What are some hidden gems (places that most tourists don't know about) that one should visit in France?

Maison de Claude Monet

Catacombes

Orangerie

Parc des princes

Château de Vaux le vicomte

2. Which dishes should everyone try when they visit France?

First of all : croissants and pains au chocolat

Merveilleux

Moules frites

Saint Jacques à la crème
